# PRODUCT PRESENTATION

## ▶ TAPE & REEL

### Roll with RFID Embedded Components for demanding SMD Productions

#### KEY FEATURES

- ▶ Integrated RFID Embedded M900 Module
- ▶ RFID Frequency HF: 13.56 MHz
- ▶ Choice of 3 different versions: DESFire, HF or MIFARE
- ▶ One-sided installation components for flexible and smooth surfaces
- ▶ Especially equipped with special soldering pads
- ▶ SMD Component for demanding SMD Productions:  
Computers, as well as industrial, medical, automotive,  
military and telecommunications equipment
- ▶ Well suited for demanding IoT and Industry 4.0 Applications
